History

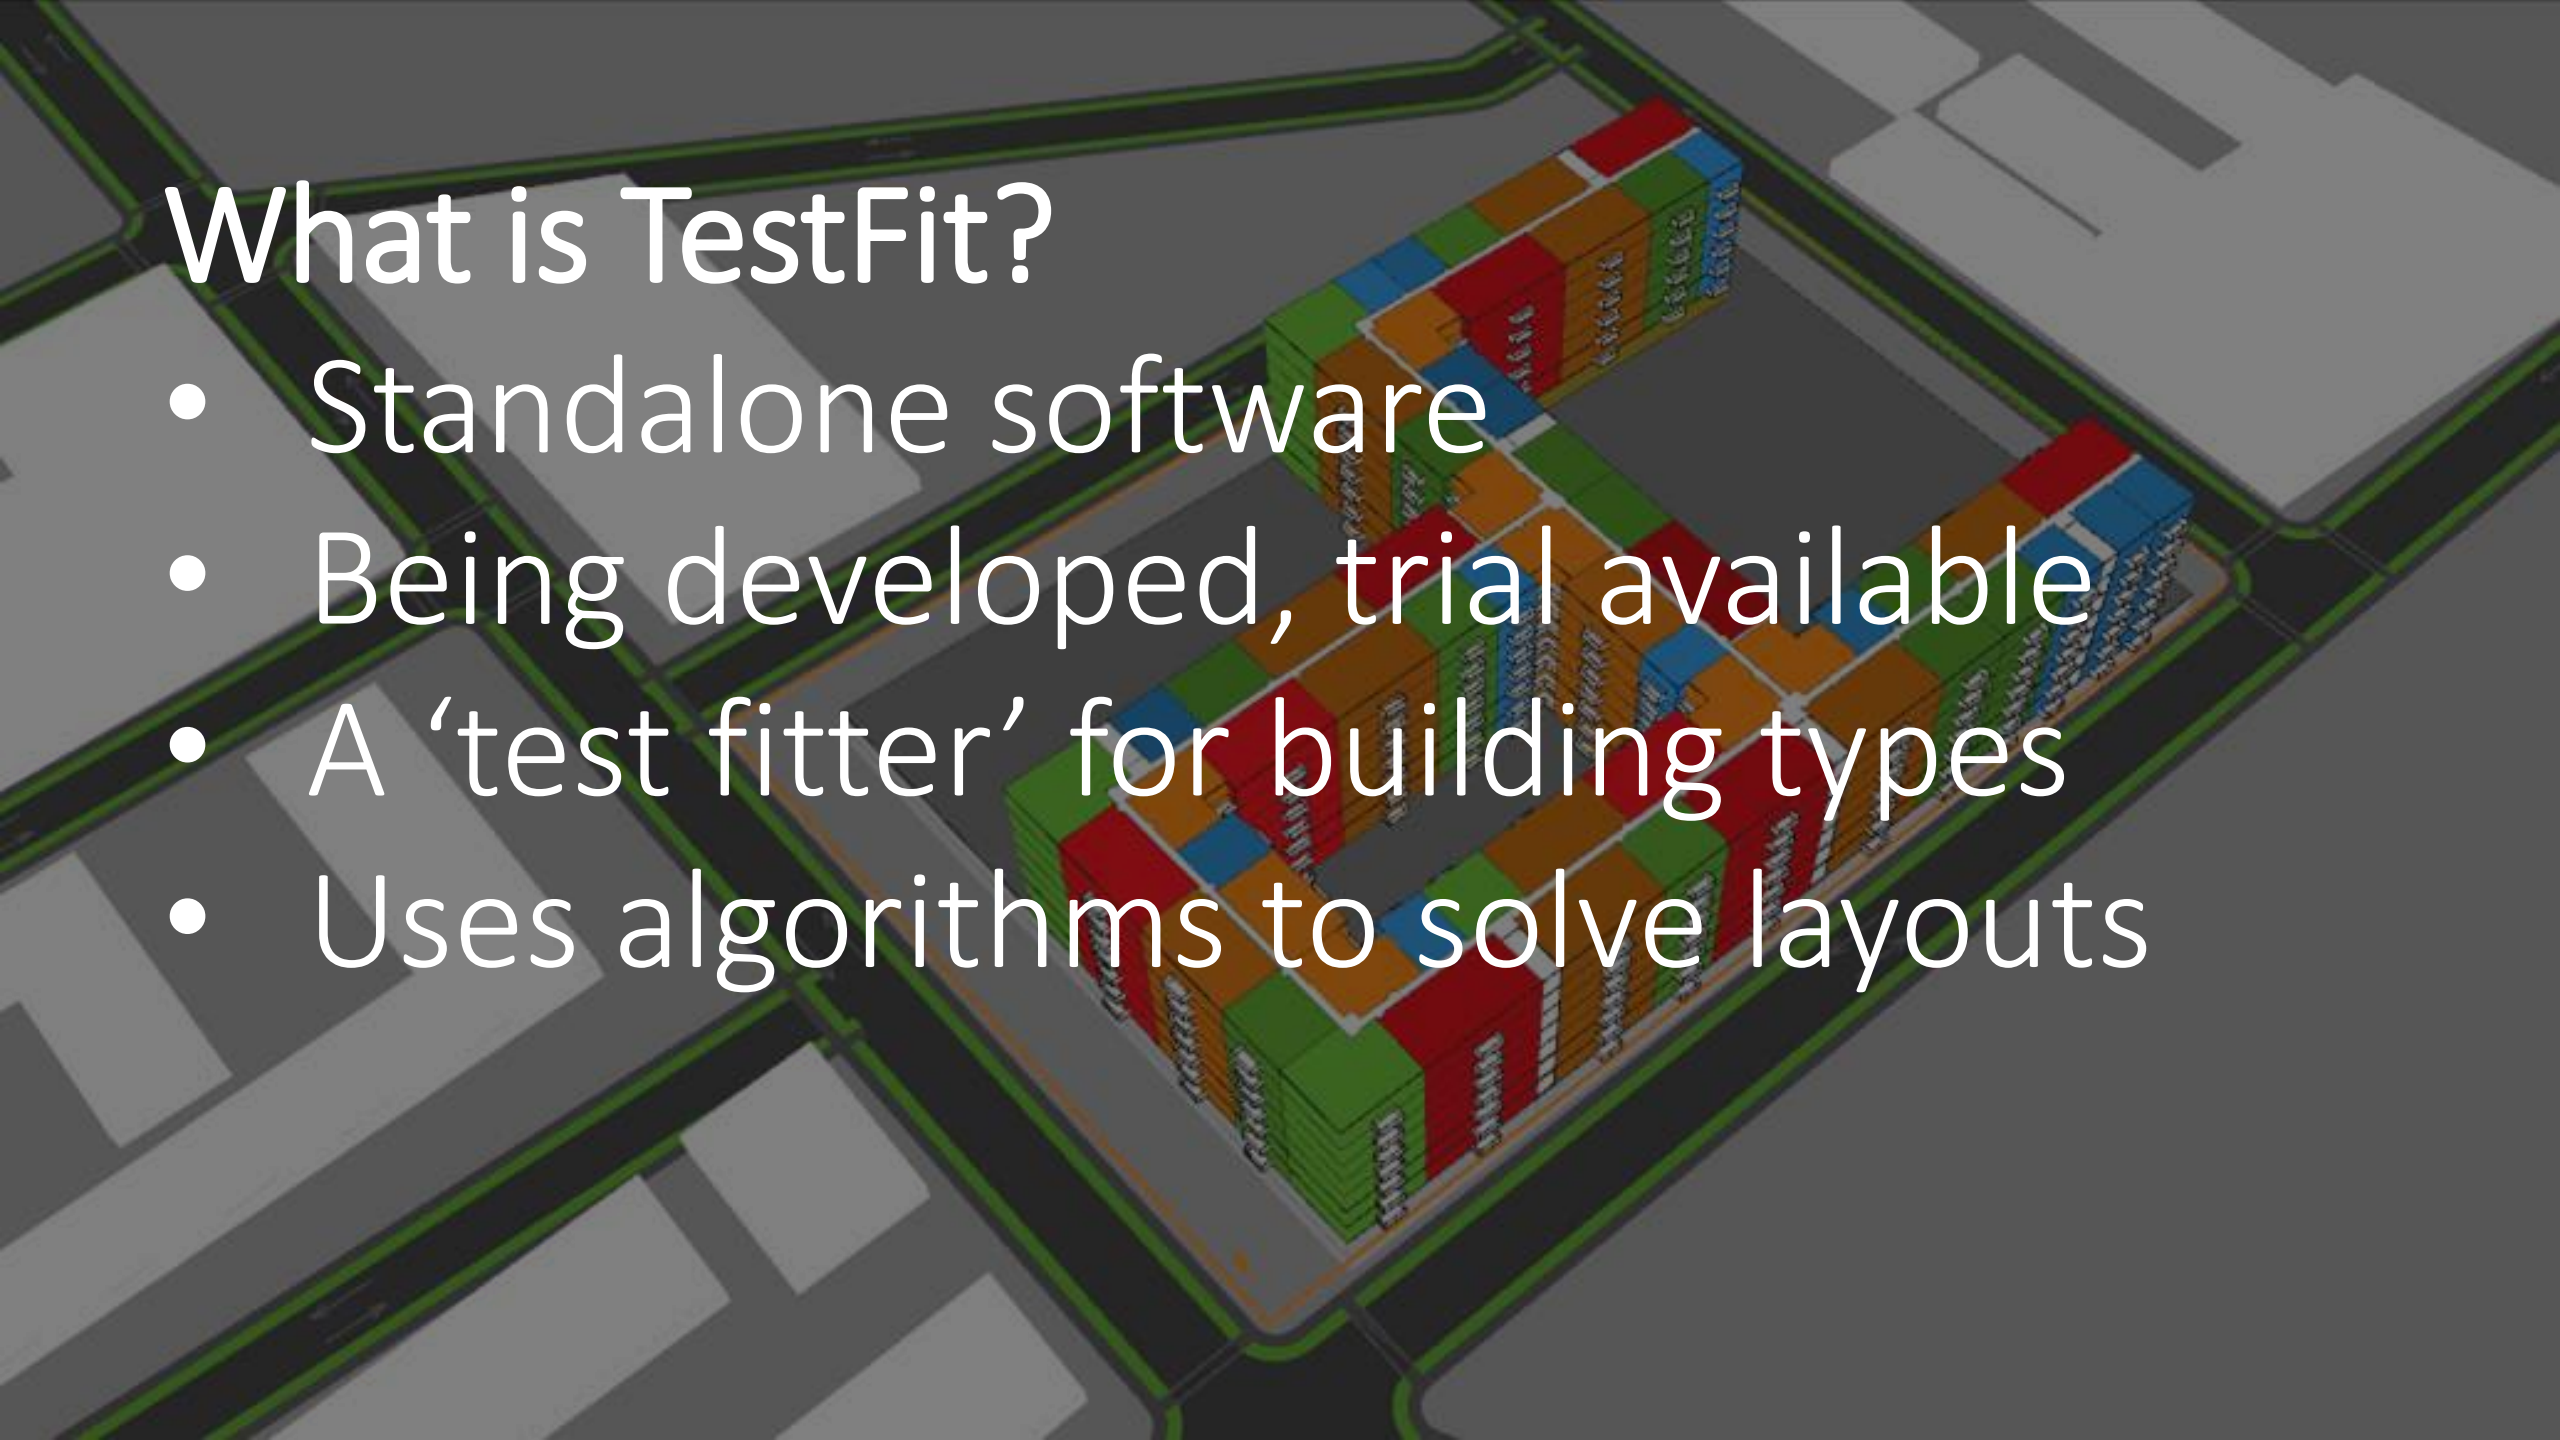
- Public release, 2017
- I first noticed it in 2019 on YT
- Recently became incorporated
- Securing lots of funding

Keep an eye on tools like this.

They **will** change our profession.

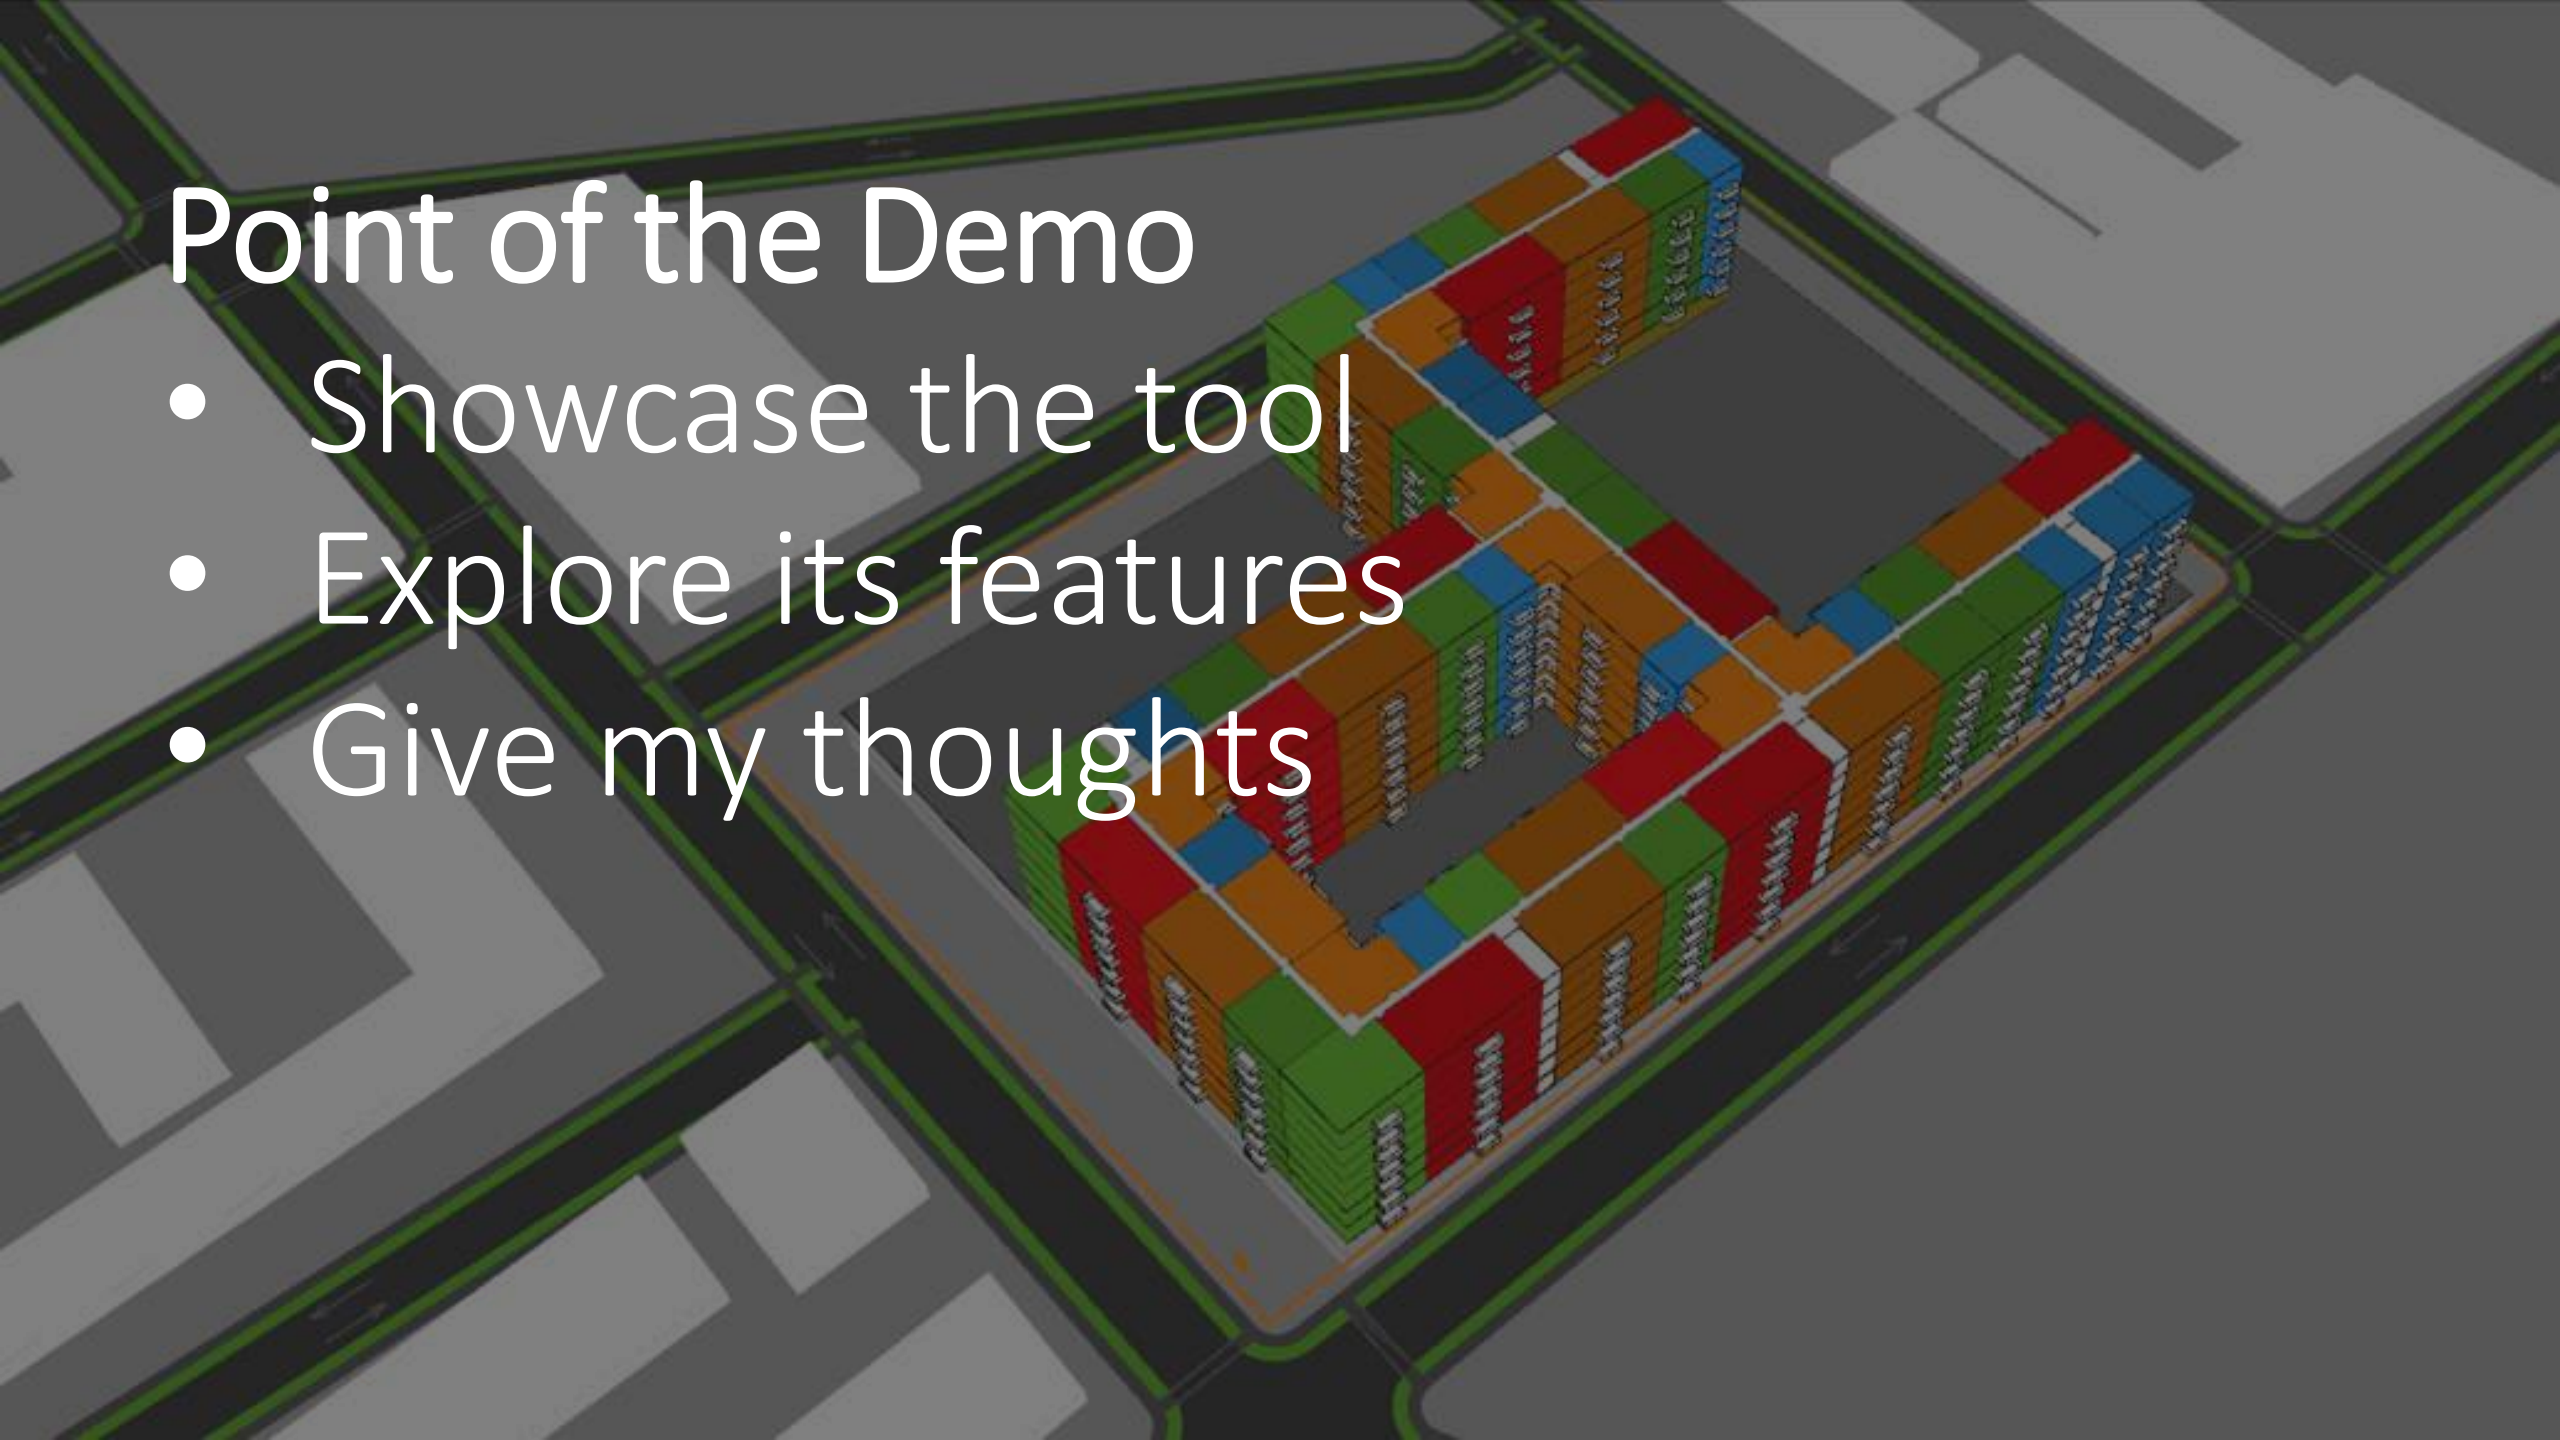
What is TestFit?

- Standalone software
- Being developed, trial available
- A ‘test fitter’ for building types
- Uses algorithms to solve layouts



Point of the Demo

- Showcase the tool
- Explore its features
- Give my thoughts



My Thoughts

- Incredible, one of a kind
- Can see the passion and drive
- UI takes some getting used to
- A few UX quirks
