

# Dynamo Player

How it works, demonstration

aussie BIM guru

# Covered Today

What is Dynamo Player

Configuring scripts for it

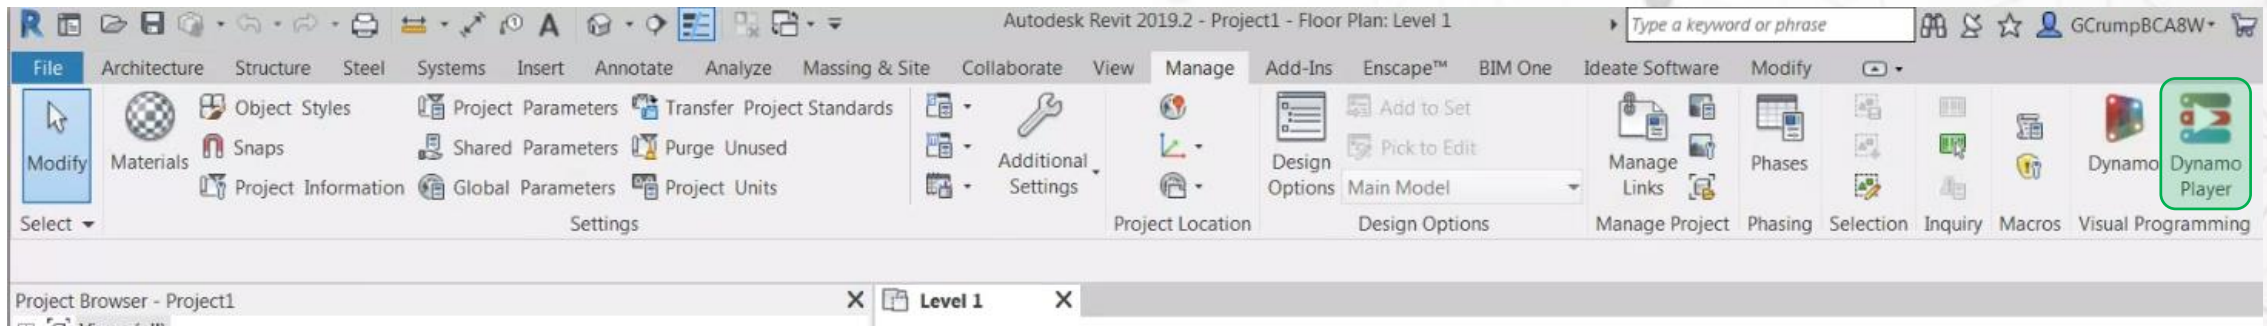

Running scripts through it

aussie BIM guru

# What is Dynamo Player?

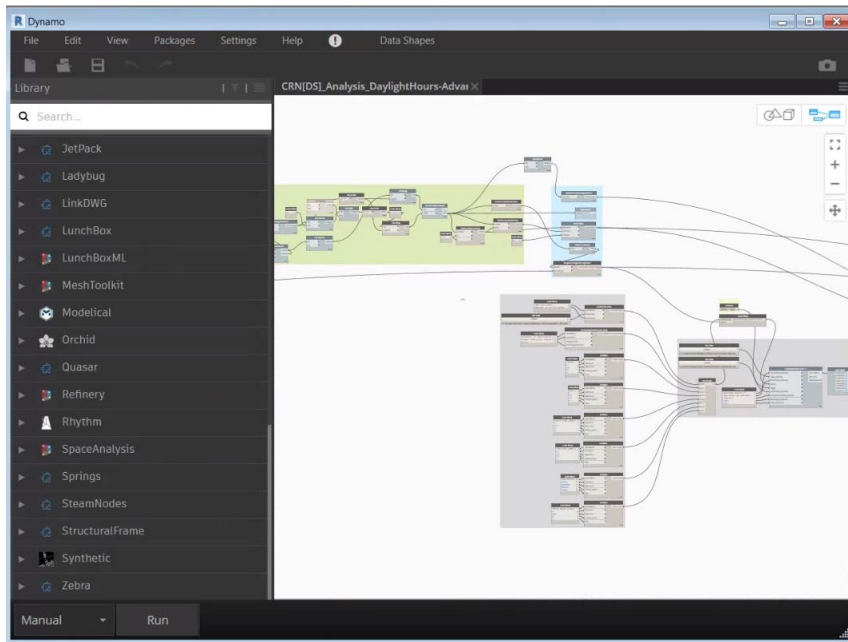

A lightweight addon which is able to run Dynamo scripts, but hide the coding environment from the user!

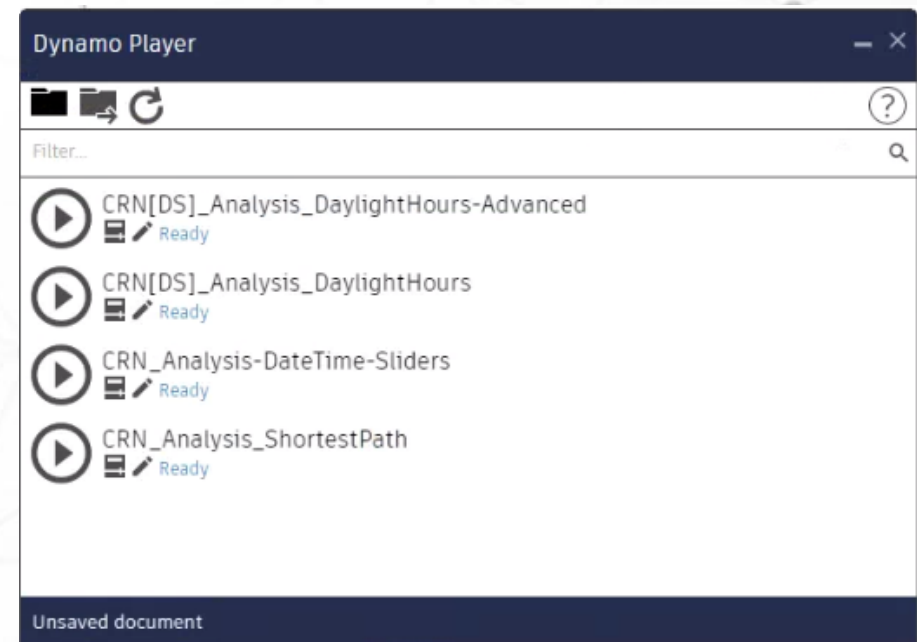

aussie BIM guru

# What is Dynamo Player?

Turns this...

Into this...

aussie BIM guru

# Important!

Users should;

Be on same Dynamo build (**X**.x.x)

Ideally same sub-build (x.**X**.**X**)

Have all required custom nodes/packages  
available in their Dynamo packages library

aussie BIM guru

A background network diagram consisting of numerous grey dots connected by thin grey lines, forming a complex web-like structure that fills the right side of the slide.

# Without further ado...

Let's demonstrate how it works!

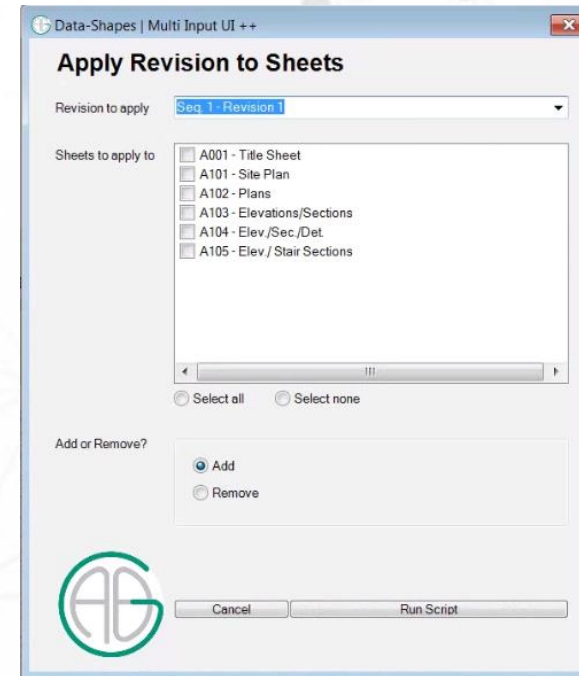

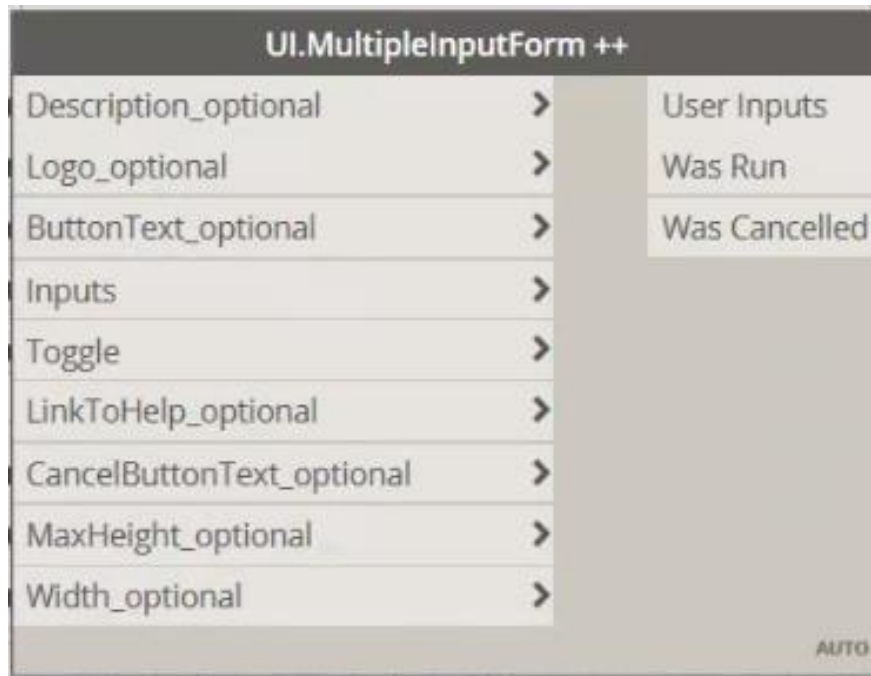

aussie BIM guru

# Further enhancements

## Data-Shapes
