aussie BIM guru

Why?

When we exchange models
We usually remove views/sheets

aussie BIM guru

Reasons for this...

Protect **Revit Content**

Prevent **re-authoring**

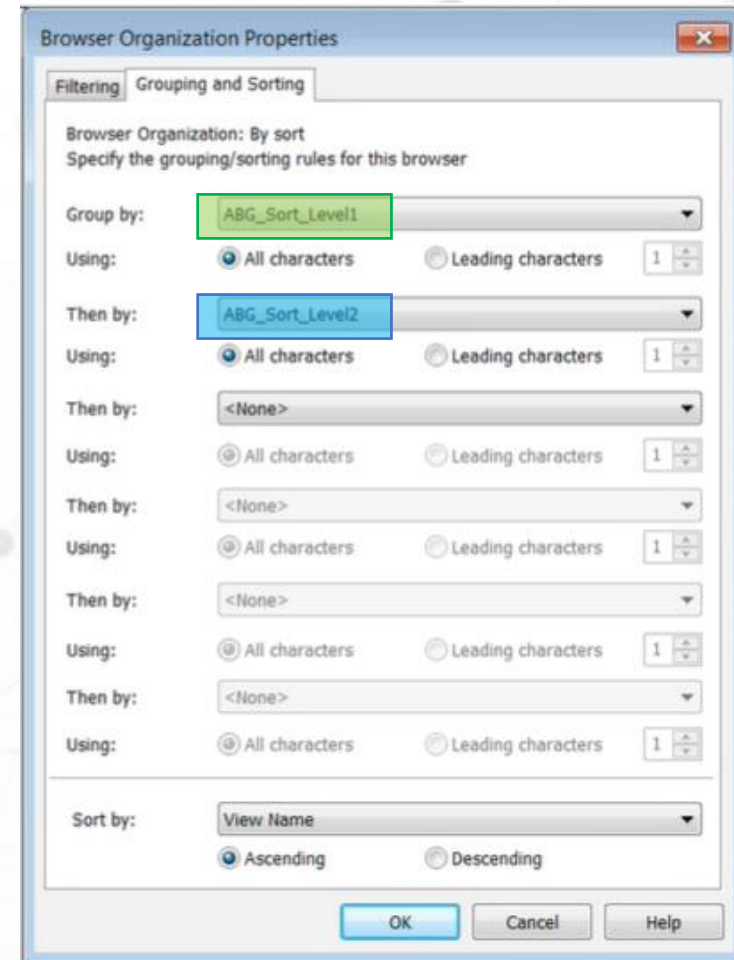

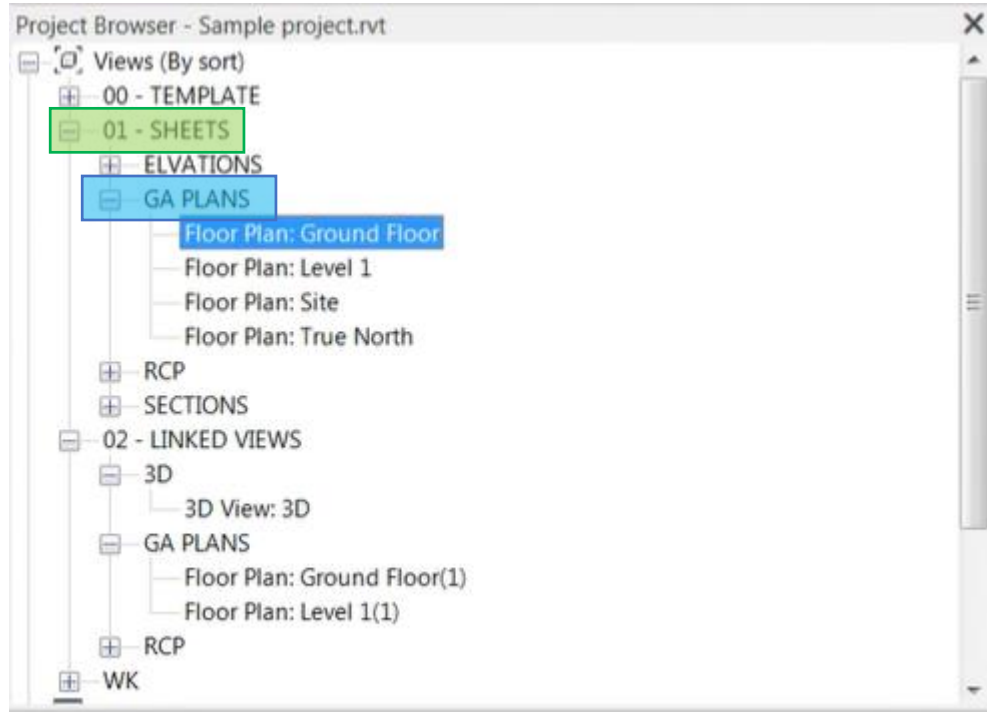

Reduce **model file size**

Easier to find **Linked Views**

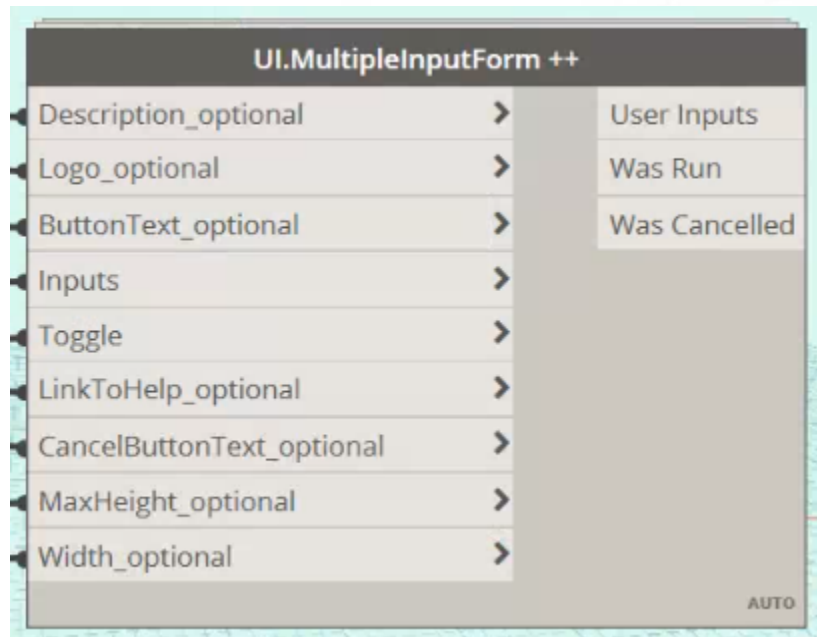

aussie BIM guru

Method

Custom Nodes

Data shapes

Versioning

2.0.3

aussie BIM guru

A background network diagram consisting of numerous grey dots (nodes) connected by thin grey lines (edges), forming a complex web-like structure that fills the right side of the slide.

Without further ado...
