Activating PCPA_GH

PCPA_GH (by visualizer)

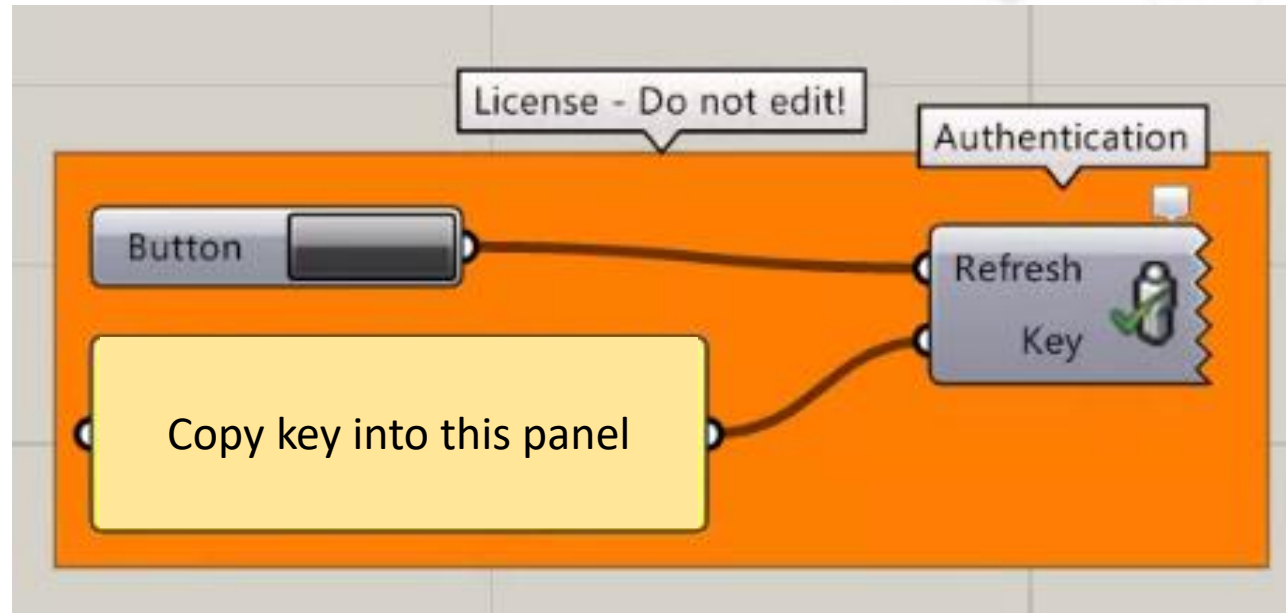

Collection of modeling tools to expand the functionality of Rhino Grasshopper by the REACH group (Pelli Clarke Pelli Architects). Specially crafted for design-oriented practices. Key functions include automatic modular paneling, trim-preserved UV paneling on Brep, extracting solar vectors, city footprint generators, and many more.

Constantly in beta testing. Functions are still being developed and polished. 1.4 version was built against RhinoCommon SR6.16. **No warranty or guarantee of any kind provided.** Please fill out [this form](#) to get free license key. Your email address will ONLY be used for license key related communications
