

Rhino Inside, Part 1

Revit elements into Rhino

What is Rhino Inside?!

Rhino.Inside® is an open source **Rhino WIP** project which allows Rhino and Grasshopper to run **inside** other 64-bit Windows applications such as Revit, AutoCAD, etc.

aussie BIM guru

The best part...

Grasshopper in Revit!!!

What will happen to Dynamo?

aussie BIM guru

How to get it

<https://www.rhino3d.com/inside>

Download Rhino for Windows WIP

WIP 2019-10-22 | 278.5 MB | [Read change log](#)

All Rhino 6 for Windows users are invited to **Serengeti**, where Rhino is developed.

We are inviting current users to try, test, and provide feedback on the work-in-progress (WIP) release while it is still in development.

You will need:

- 64-bit Windows 7 or later.

aussie BIM guru

You will need Rhino 6

<https://www.rhino3d.com/download/rhino-for-windows/6/evaluation>

Download Rhino 6 for Windows Evaluation

Eval 2019-10-22 | 263.8 MB | [Read change log](#)

This is the **evaluation** version. Saving and plug-ins stop working 90 days after you download, unless you **purchase**.
(After 90 days, it will still work great to **learn** Rhino and to **view** Rhino and many other file formats.)

Buy a license here. Want to try Rhino for Mac instead?

Requirements:

- 64-bit Windows 7, 8.1, or 10.

Filter by category

Filter by type/level

Get **elements**

Bake into Rhino!

aussie BIM guru

I'm using
Rhino 6
Revit 2019.2

aussie BIM guru

A faint, light gray background graphic consisting of a network of interconnected dots and lines, resembling a molecular structure or a complex web, extending across the right side of the slide.

Without further ado...

Let's get started...
