

**Add Shared Parameters  
to Multiple Families  
using Dynamo!**

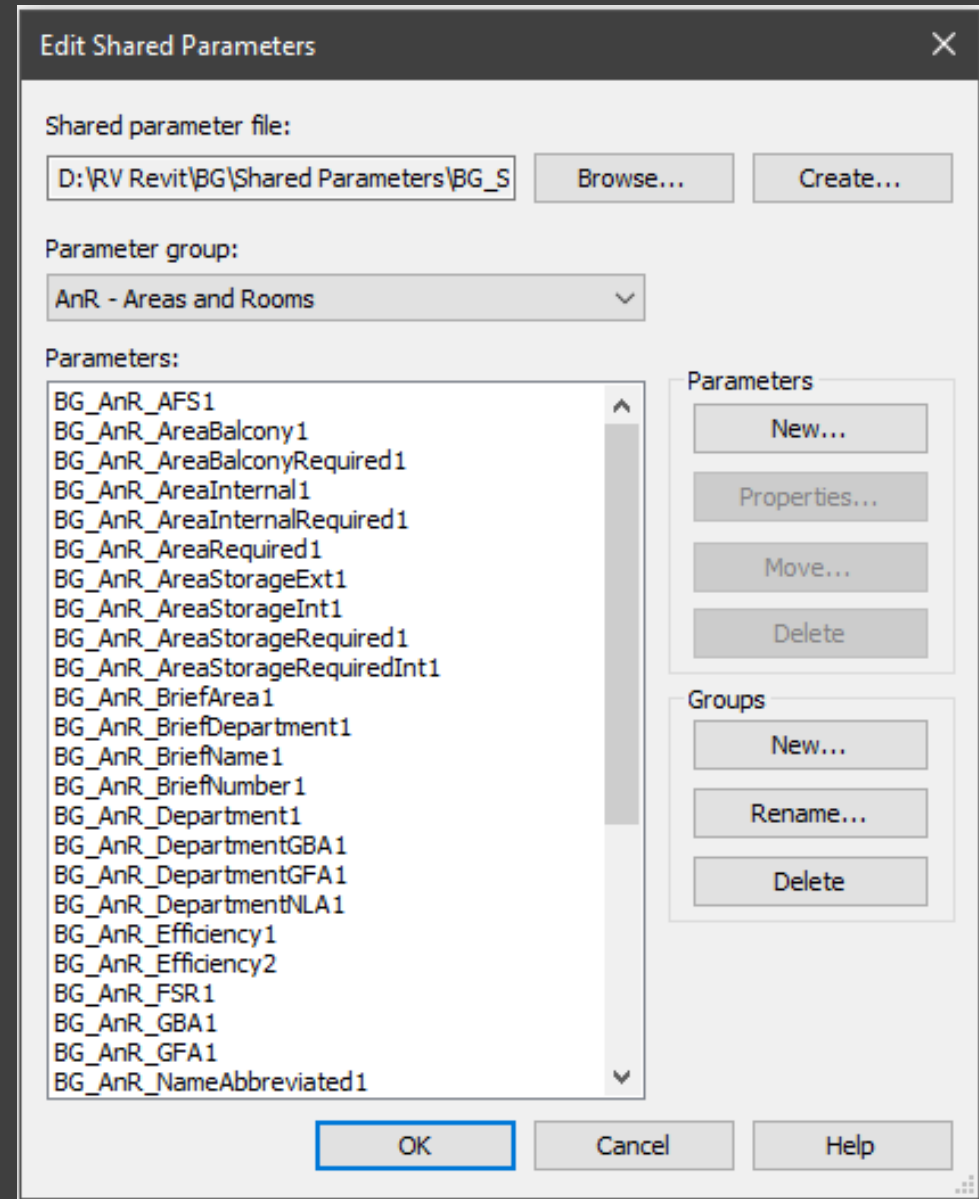

# Previously...

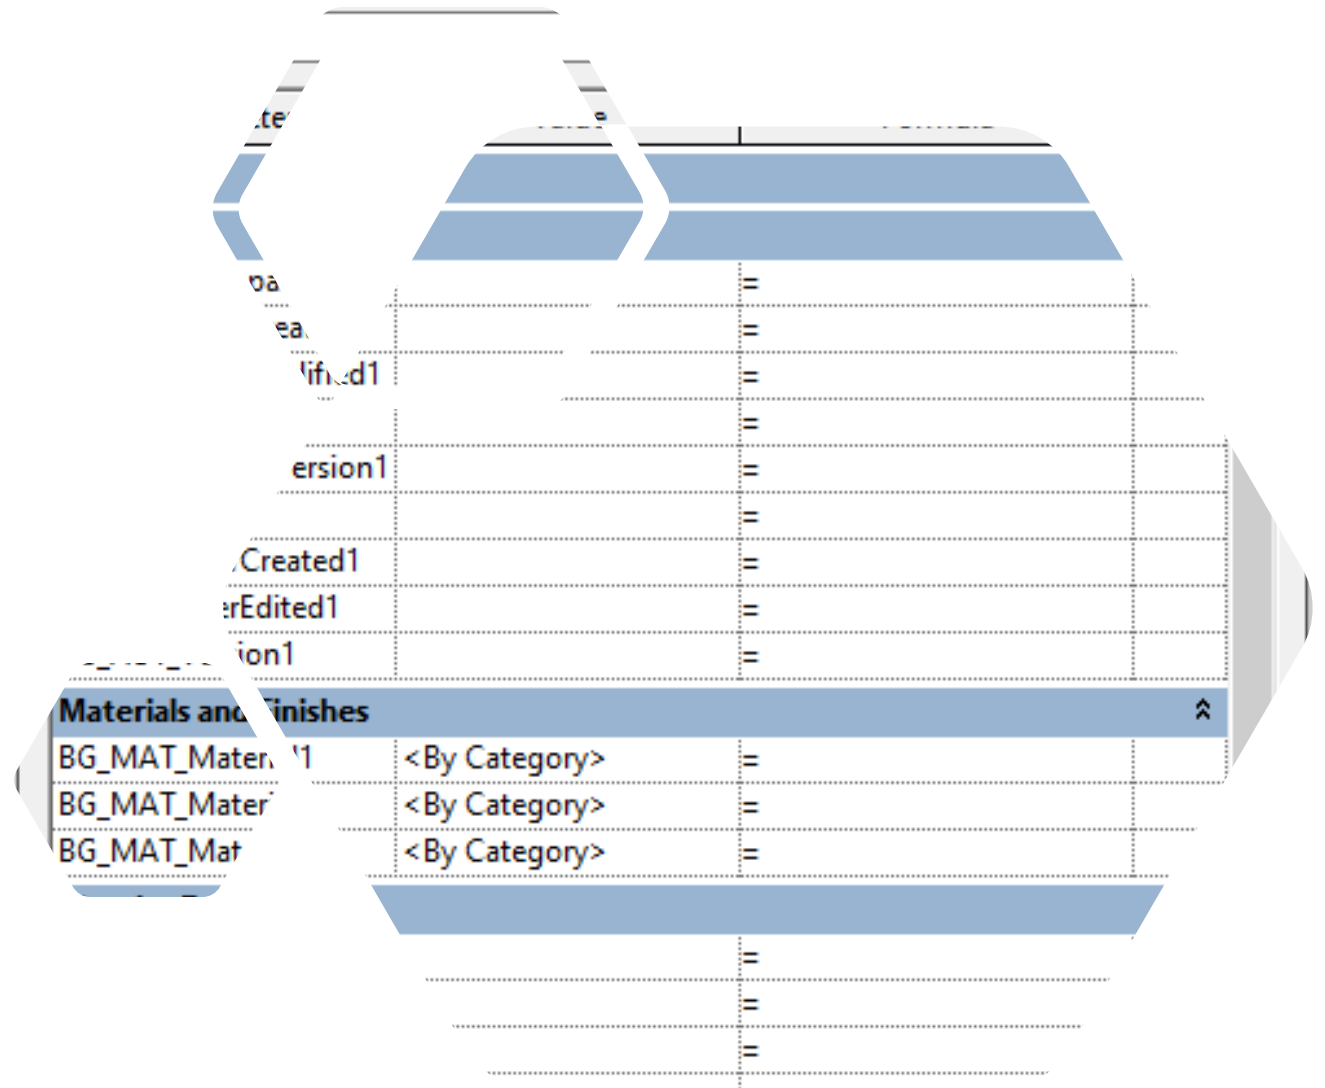

The screenshot shows a video player interface. In the top-left corner, there is a small video feed of a man with glasses. The main area displays a presentation slide. On the left side of the slide is a large 'ABG' logo with a green outline. Below it, the text reads: 'aussie BIM guru', 'Email me at: aussiebimguru@gmail.com', 'I'm on Twitter: @AussieBIMGuru', and 'I'm a BIM Consultant: www.bimguru.com.au'. The central part of the slide features a diagram: a notepad icon, a blue arrow pointing right, a Dynamo logo, and a blue 'RFA' file icon. Below this diagram, the text says: 'Add Shared Parameters to Families (2020) using Dynamo!'. The bottom of the video player shows a progress bar at 0:23 / 16:42 and a Windows taskbar with various application icons.

We took a  
shared  
parameter file

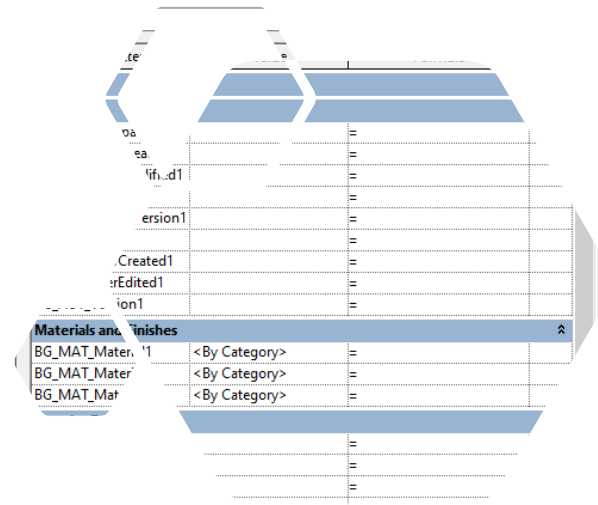

We added  
parameters  
to 1 family
