I would appreciate you doing a tutorial or promotional video. I'm pretty curious what the response from your following will be like.

aussie BIM guru

# What is Xuver?

Visualisation software

Aimed towards architecture

Web hosted

Can handle Revit, Sketchup,  
ArchiCAD and FBX files

aussie BIM guru

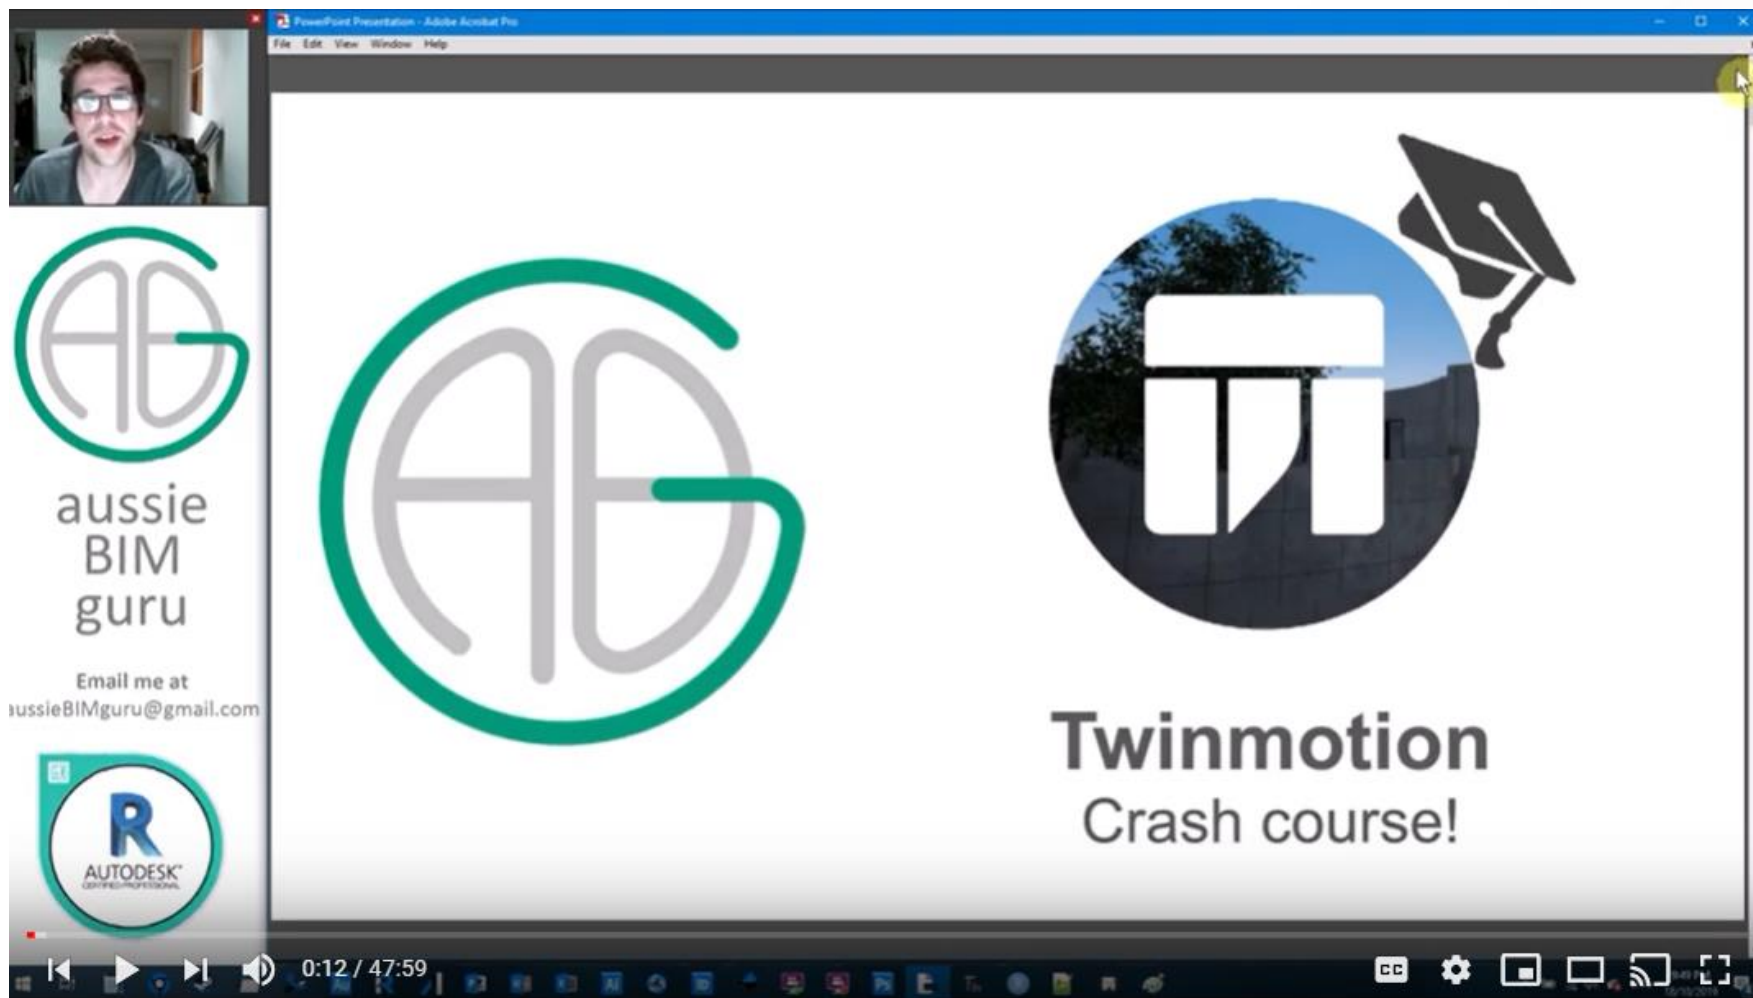

# The marketplace

aussie BIM guru

PowerPoint Presentation - Adobe Acrobat Pro

File Edit View Window Help

ABG

aussie  
BIM  
guru

# What is Xuver?

aussie BIM guru

<https://xuver.com/#section-trial-banner>

aussie BIM guru

# Focus is not graphics

## I'll show you why

aussie BIM guru

# Suggested development

Baking of material channels

Environment maps

RPC content/proxy

AO/DOF/Cam.C settings

aussie BIM guru

# Noting

I'm using the trial

aussie BIM guru

# Features of note

Super easy to use

No software, web based

Invite users to projects

Multi-user environment

aussie BIM guru

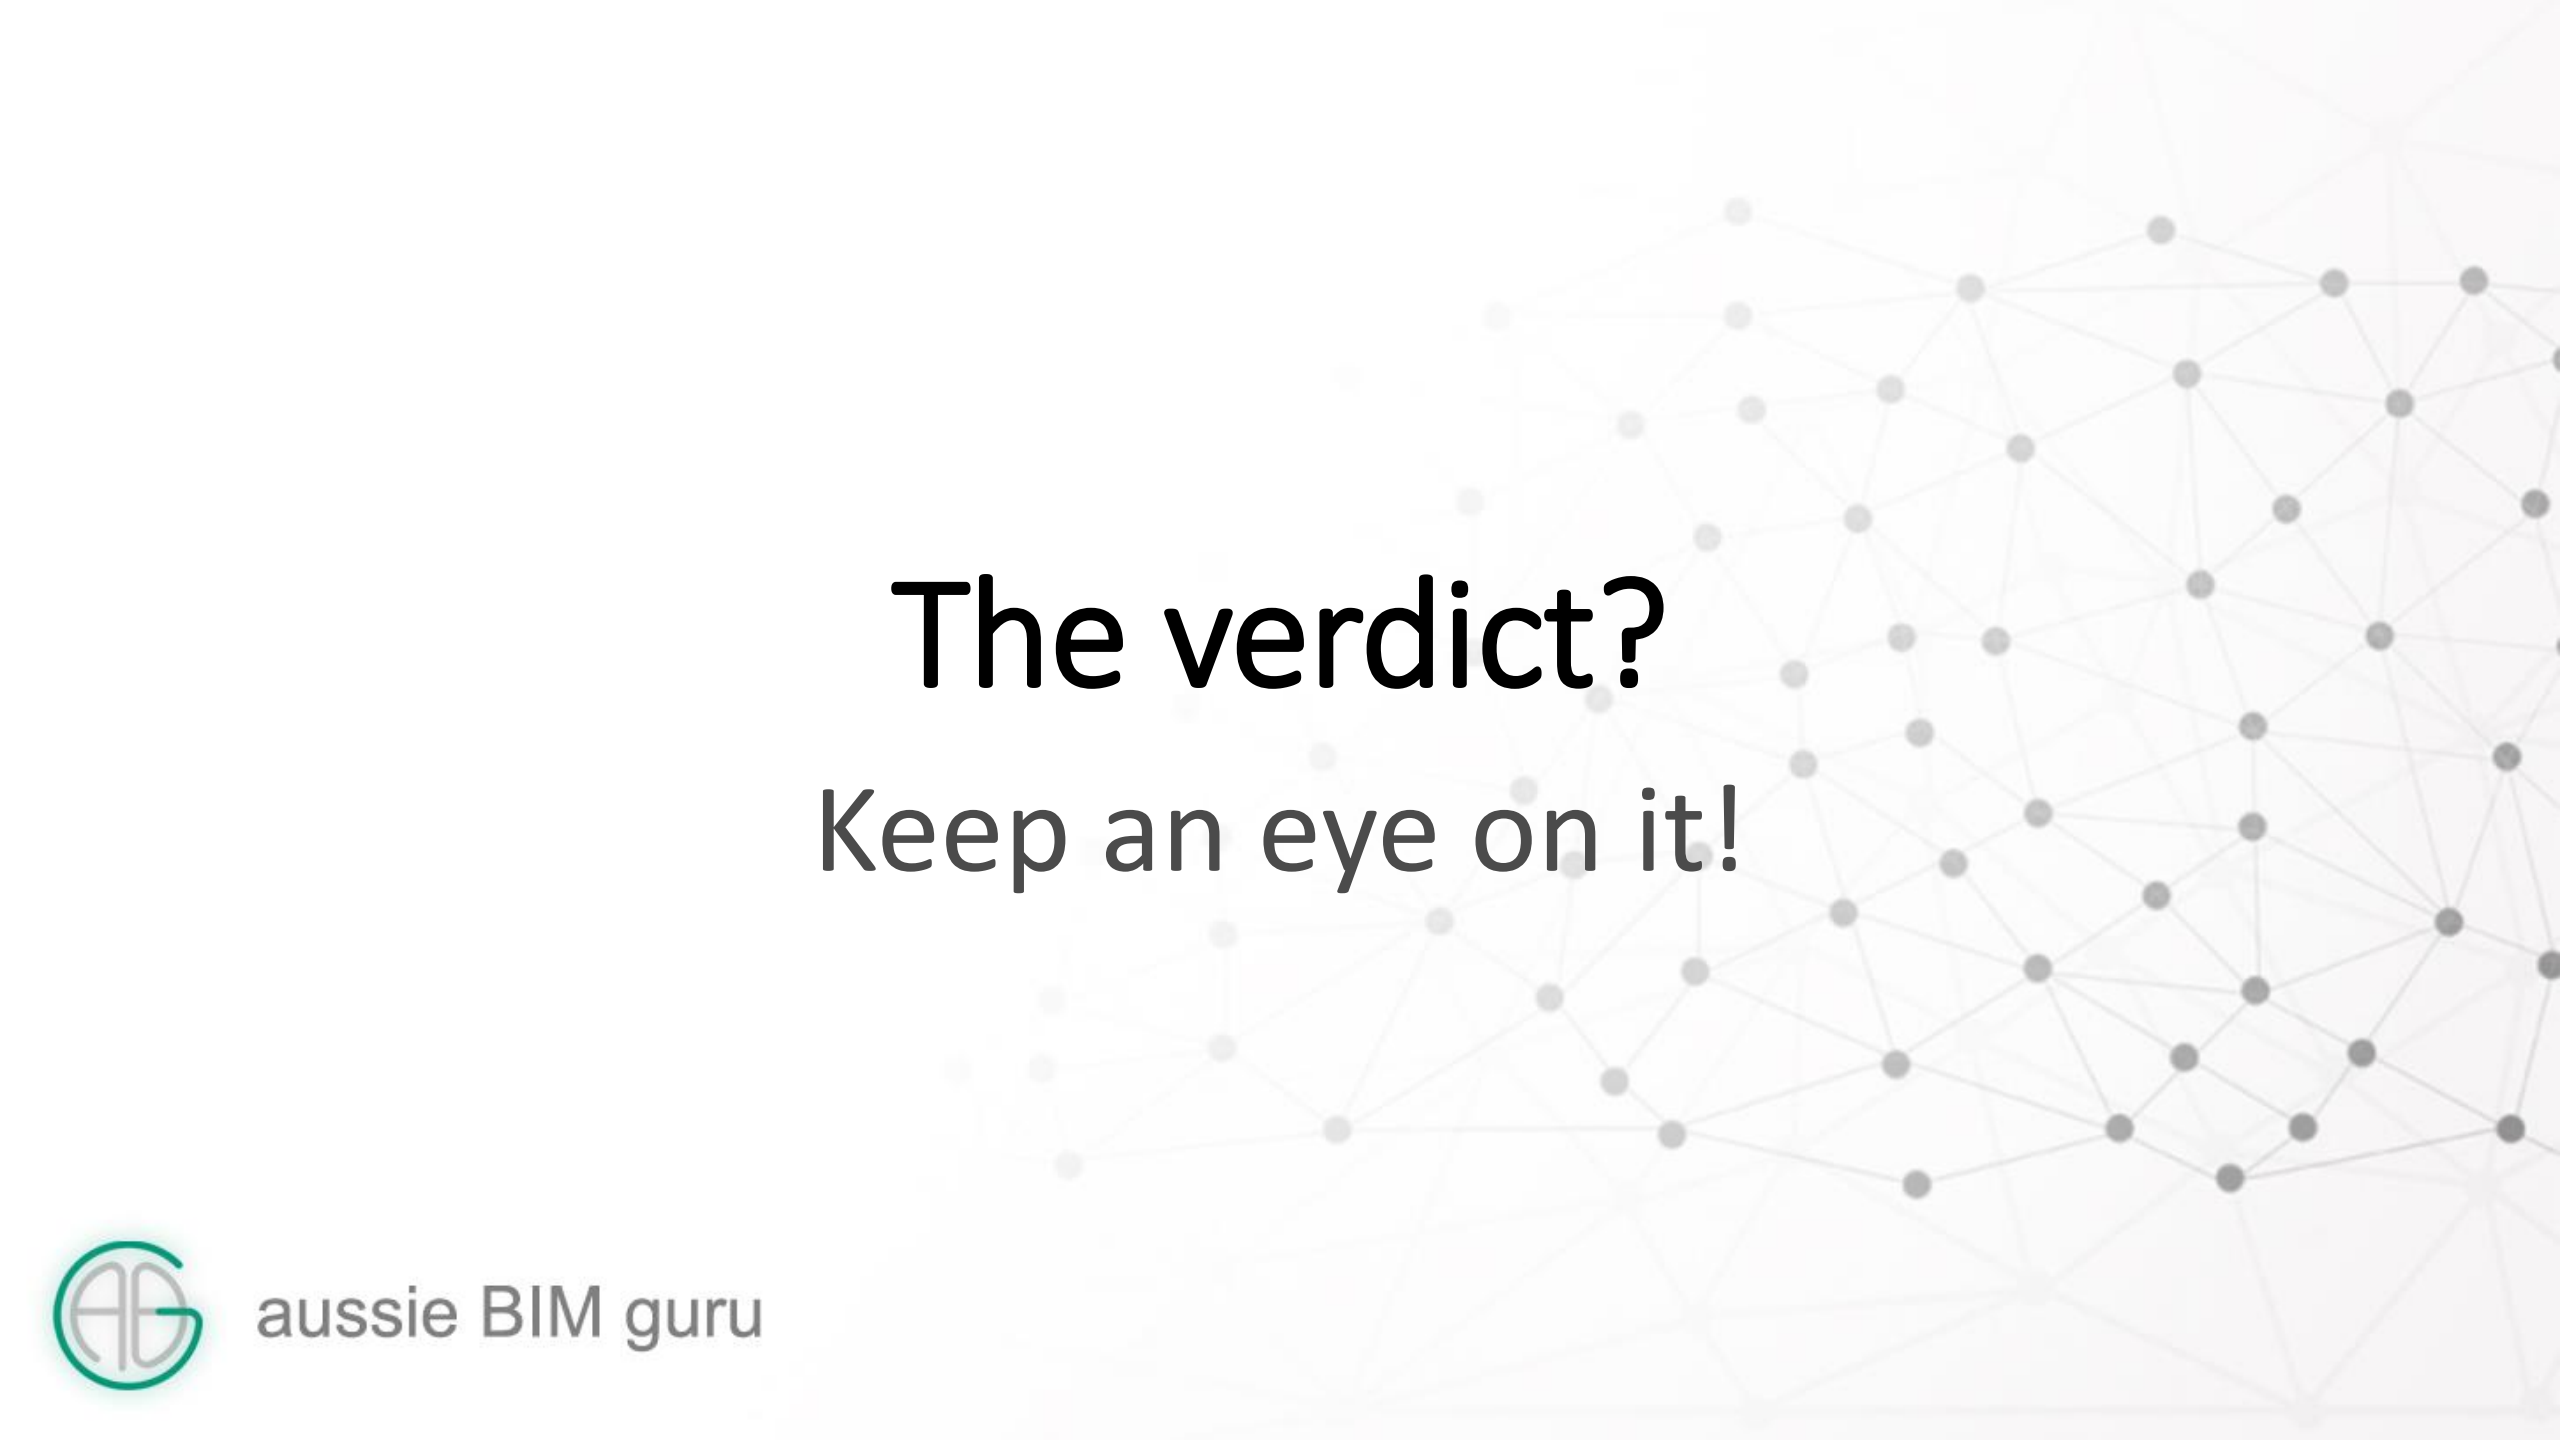

A background network diagram consisting of numerous grey dots connected by thin grey lines, forming a complex web-like structure that fills the right side of the slide.

# Without further ado...

## A quick look around!

aussie BIM guru

A background graphic consisting of a network of grey dots connected by thin grey lines, forming a complex web-like structure that fills the right side of the slide.

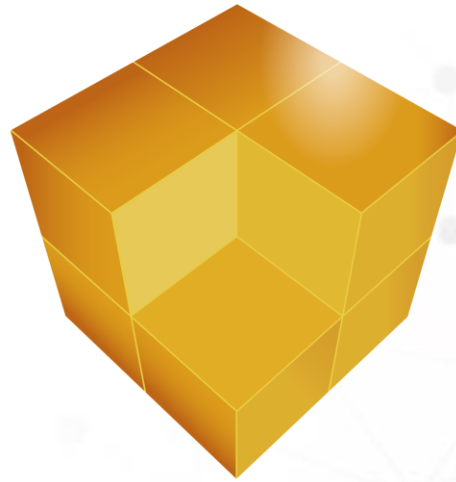

**The verdict?**  
Keep an eye on it!
