aussie BIM guru

Today's Model/Families

aussie BIM guru

Tagging! zzzzzzzzz

Three part series

1. Tag all in view
(with valid data to tag)

2. Tag all in view by room

3. Tag all in view by room, with optional UI to filter out families

aussie BIM guru

Keynotes

# Not available to Dynamo... or the Revit API ☹

aussie BIM guru

Multi-category tags

Usually better than keynotes

aussie BIM guru

Tag All

Some limitations…
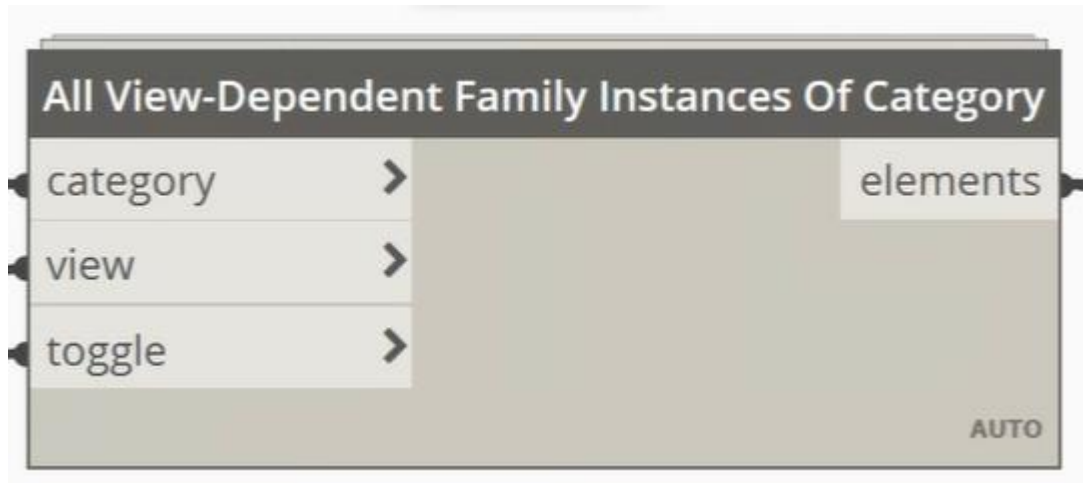

aussie BIM guru

Dynamo to the rescue!

Save us from the boredom of tagging

aussie BIM guru

Custom Nodes

Clockwork

GeniusLoci

Versioning
## 2.0.3 Ideally

aussie BIM guru
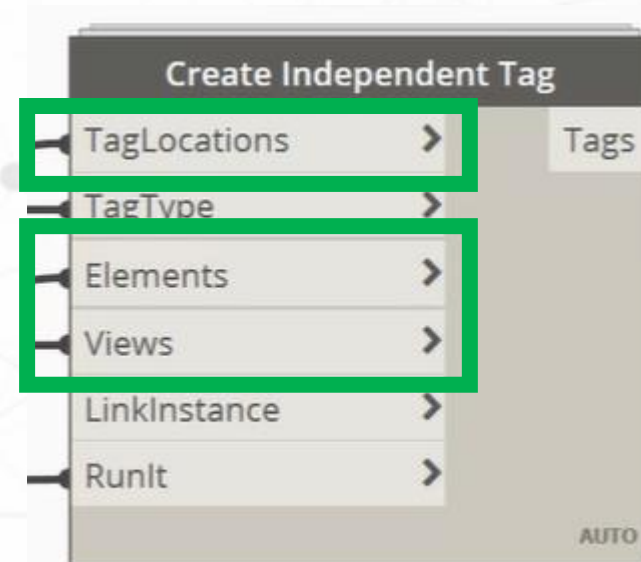

Without further ado…

aussie BIM guru

For the automatons...

Tag more than one view at once!

GeniusLoci

Datashapes

aussie BIM guru

Next Video

1. Tag all in view
(with valid data to tag)

2. Tag all in view by room

3. Tag all in view by room, with optional UI to filter out families
